

Shared Memory CPU Strong Scaling Study		
Cores	Time	Speedup
1	9.206	1
2	4.824	1.9083748
4	2.441	3.7714052
8	1.302	7.0706605
16	0.792	11.623737

This scales well, but the speedup begins to decrease with more than eight cores.
